

BATTERY Rx™

YOUR SOLUTION FOR BATTERY HEALTH.

COMING SOON

Battery Rx combines...

- Advanced Battery Monitoring Module
- Cellular Communication
- Data Management Software

...to bring to you the latest in battery management, care, and warranty compliance tracking

HOW IT WORKS

The Advanced Battery Monitor...

- ...is secured on to the battery and is used to uniquely identify the battery
- ...lives with the battery for the rest of its life
- ...tracks and stores battery health and charge data, directly downloadable from the battery
- ...communicates with chargers and transforms your facility into a "smart fleet" operation

Cellular Communication...

- ...delivers actionable data in real time without costly infrastructure

Data Management Software...

- ...features an intuitive user interface
- ...delivers historical reports and real time alerts
- ...schedules preventive maintenance
- ...lets you view and download fleet info from the Web
- ...helps you comply with your battery warranty

A SAMPLING OF ALERTS AND DATA TYPES

- Battery High and Low Temp
- Battery High and Low Voltage
- Battery State of Charge
- Days since Equalization
- Charge Current
- Water Level
- Number of Equivalent Cycles
- Pack Imbalance

...and more

Take charge of your batteries with Battery Rx.

MORE POWER TO YOU.
