AeroVironment™

Coronavirus (COVID-19) is a respiratory illness caused by a virus that was first identified in China. It is contagious and includes symptoms like fever, cough, and shortness of breath. U.S. health officials have advised that Americans should be prepared for significant disruption due to the COVID-19 outbreak.

1 **Keep it clean**
Clean your hands with soap and water for 20 seconds after being in public areas, and if you're around someone who isn't feeling well. Also, clean frequently touched objects.

2 **Avoid contact with sick people**
Avoid close contact with people who are sick and avoid traveling to locations where there are outbreaks of the coronavirus. And if you get sick, stay home to avoid spreading the virus to others.

3 **Contact Advance Medical**
Advance Medical can answer questions about the disease, evaluate your risk, and provide support by phone to help relieve symptoms for affected patients, addressing both physical and mental health needs.
