

# At-Home COVID-19 Test Reimbursement Program

On January 10, 2022, federal regulators issued guidance regarding mandatory coverage of at-home or over-the-counter (OTC) COVID-19 diagnostic tests purchased on or after January 15, 2022, during the public health emergency.

### **Coverage Of Diagnostic COVID-19 At-Home or Over-The-Counter Tests Without a Physician Order**

Group health plans and insurers must provide coverage without cost-sharing, prior authorization or other medical management requirements for OTC diagnostic COVID-19 tests that meet statutory criteria. An order or individualized clinical assessment by a health care provider is not required when purchased on or after January 15, 2022 during the public health emergency.

The limit of OTC COVID-19 tests covered for each participant is 8 tests per 30-day period or calendar month.

### **How to file a claim for reimbursement:**

- **Print** the attached claim form (also available on My AV Benefits)
- **Complete** all employee/participant sections.
- **Submit** a separate claim form for each member for whom the at-home test is purchased.
- **Provide** proof of payment such as the original receipt(s) for at-home test(s), showing the amount paid and the test(s) purchased.
- **Include** UPC/barcode information from the at-home test(s).

**\*Trustmark must receive all required information for your request to be processed.**
