

# Switchblade®

AeroVironment's combat proven Switchblade continues to provide conventional and special operations forces with a back-packable, rapidly deployable, loitering precision strike munition for use against beyond-line-of-sight (BLOS) targets.

This miniature flying lethal missile can be operated manually or autonomously. Switchblade provides the operator with real-time video and Cursor-on-Target GPS coordinates for information gathering, targeting, or feature/object recognition.

The vehicle's small size and quiet motor make it difficult to detect, recognize and track even at very close range. The Switchblade is fully scalable and can be launched from a variety of air, sea, and ground platforms.

## SPECIFICATIONS

<b>FIRE CONTROL SYSTEM</b>	Interoperable with Common Ground Control Station for Puma™ AE, Raven®, and Wasp® AE
<b>TARGETING OPTICS</b>	Dual front and side look EO cameras and IR nose camera. Stabilized electronic pan-tilt-zoom
<b>RANGE</b>	10 km range backpack with 15 km–45 km options
<b>ENDURANCE</b>	15+ minutes
<b>SPEED</b>	63 mph cruise, 100 mph dash
<b>OPERATIONAL ALTITUDE</b>	Below 500 feet AGL (ceiling >15,000 feet MSL)
<b>WEIGHT</b>	Approx. 5.5 lbs (2.5 kg), fits inside Rucksack, (includes payload, launcher and transport bag)
<b>LAUNCH METHOD</b>	Self contained ground launch and multi pack
<b>OBSERVABLES</b>	Very small visual, thermal and acoustic signatures
<b>LETHALITY</b>	Precision strike with very low collateral damage
<b>OPTIONAL LAUNCH PLATFORMS</b>	Air vehicle, ground vehicle, water craft, multi pack, etc.
<b>PAYLOAD</b>	Orbital ATK advanced munition

## KEY FEATURES

- Tube launch
- Precision Strike
- Operator selectable low collateral effects
- Able to engage targets
- Rapidly Deployable in < 2 min
- Automated waypoint navigation
- Effective against stationary and moving targets
- Wave-off/recommit capability
- Modular Payload
- Secure digital C2
- One man operation
- Back-packable
