The telemax EVO PRO’s compact design with extended manipulator reach delivers proven performance in complex urban environments. Built for speed and mobility, its 4-track drive system, with optional snap on wheels for extra traction, enables it to easily traverse obstacles, gaps and steep inclines. Its 7-axis manipulator with Tool Center Point Control features a telescopic joint allowing for extended reach and precision operation in confined spaces. An expansive payload bay and automatic tool exchange allow operators to take multiple tools, disruptors or other sensors downrange, eliminating round-trip load-outs. Onboard IP Mesh radio delivers secure communications and the HD pan-tilt-zoom camera produce razor-sharp images with four simultaneous video feeds (QuadView). All AeroVironment UGVs feature the intuitive and operationally simplified Robo Command Control Station with multi-touch screen, pre-programmed motion sequences and ergonomically designed hand controllers for precision control of the robot, manipulator and accessories.
Compact Design—Superior Mobility and Extended Reach

**DISTINCTIONS**

» LIFTING CAPACITY
  44 lb (20 kg)

» MANIPULATOR
  7-axis with telescopic reach

» MISSION DURATION
  Up to 1 hr

» CLIMB STAIRS AND SLOPES
  45°

**SPECIFICATIONS**

**INTERCHANGEABLE ACCESSORIES**

- Optics/Visual Augmentation
- USV Communications
- Power Sources
- Wheels/Tracks
- Tooling & Hauling
- Render Safe Options

**MISSION VARIANTS**

- EOD Explosive Ordnance Disposal
- HAZMAT Hazardous Materials
- CBRNE Chemical, biological, radiological, nuclear & explosives
- SWAT High Risk Law Enforcement Operations

**LIFT CAPACITY AT DISTANCE**

- 6.6 lb (3 kg) // 68 in (1730 mm)
- 11 lb (5 kg) // 45 in (1140 mm)
- 27.5 lb (12.5 kg) // 31 in (800 mm)
- 44 lb (20 kg) // 22 in (560 mm)

**KEY FEATURES**

» 7-axis precision manipulator

» Tool Center Point Control—providing maximum movement flexibility of the manipulator

» Fully integrated 2-way audio module

» HD pan-tilt-zoom camera—displays four video feeds (QuadView)

» Versatile 4-track drive system—handles gradients/obstacles/gaps

» Easy access to pre-programmed manipulator & flipper motion sequences

» IP Mesh Radio Network with optional repeaters provide secure & resilient communications over extended ranges
